

Maths

Multiplication and Division

- Multiply and divide up to 4 digits and 2 decimal places by a single digit using the standard written method
- Multiply a 2 digit number by a 2 digit number
- Multiply and divide 3 digits by 2 digits using the standard written method.
- Multiply and divide mentally up to 3 digits by 10, 100, 1000 including decimals up to 3 decimal places and by multiples of 10, 100, 1000.

Time

- Calculate more complex time durations for all times and units.
- Work with more complex timetables.
- Solve more complex problems involving times, e.g. journeys.
- Solve basic time, distance, speed problems (whole hours only), e.g. I walk an average of 4km/hr. How far will I travel in 3 hours?

Multiples, Factors and Primes

- Recognise number patterns in and beyond all multiplication tables.
- Use the terms multiple, factor, square number and prime in the correct context.

Scots

As part of our Scots learning, the pupils will learn a Burns verse in a group, an individual Scots poem and complete their P7 project. The project winner will be announced at Scots Evening on Wed 6th Feb.

Homework - Homework will be given out on a Friday, due the following Thursday. Please check and sign homework diaries each week as this will show the 'Go for Green' behaviour record. This term will include a Scots project - due Wed 6th Feb.

Jan-Mar 2019

Health and Wellbeing

Indoor PE: Rugby sessions delivered by Biggar RFC

Outdoor PE: Cross country training

P6 and P7 will participate in cross country training on a Wednesday and Friday each week. This will consist of warm up jogs, laps of Kildare Park and sprints to prepare us for the competition in March.

Science

This term pupils will be studying energy, supported by 'Powering Up' workshops at New Lanark. They will also participate in the FunStem workshops for P7 pupils at Lanark Grammar. FunSTEM introduces primary school-aged children to the fundamentals of science, technology, engineering and maths by framing STEM-based learning as an exciting and enjoyable experience.

Literacy The class will be reading a group text (Dragonfire/100 Most Dangerous Things/Saving Finnegan/Science is Awesome) and undertake tasks related to their reading. Books will also be sent home to read as homework. During our taught writing sessions we will focus on non-fiction writing of reports and discursive texts. Weekly spelling words and grammar lessons will also feature.

Later in the term, P7 will be reading 'Holes' by Louis Sachar as a whole class novel study, undertaking comprehension tasks. The class will also watch the film version of the novel as a comparative study.

Topic

This term pupils will be participating in the Scottish Opera production of '1719' which is based upon the Jacobites. This will result in a performance incorporating drama and music on Tues 6th Feb.

Later in the term, pupils will be studying discrimination in America through the class novel of 'Holes'. They will learn about historical figures from America such as Martin Luther King and Rosa Parks.
