

Numeracy

Pupils will work at the appropriate stage and pace for them whilst developing their knowledge of multiplication and division. We will be working on using these skills to learn about money as well. Our learning will include working on our mental agility e.g., fast fact recalls of addition, subtraction and multiplication facts.

In mathematics, we will be learning about shape, money (as above), measure and information handling. These will link with our Farm to Fork topic for this term.

Health and Wellbeing

Our learning in Health and Wellbeing this term will be focussed on similarity, diversity and respect. We will work to understand our similarities and differences, what makes us unique and how to respect differences in others.

In P.E, we will be working on central ball and net games (volleyball, badminton), as well as dance. We will be continuing to 'fine tune' our gross motor skills and ability to work in teams.

PE days are:

Wednesday (Indoor gym hall)
Friday (MUGA)

We will also be in the woodlands for Outdoor Learning most Tuesdays, weather permitting.

Appropriate clothing is required for all sessions.

Primary 3

Miss Robertson and Mrs Callan

January - March 2025

Topic

We have recently started our new topic 'Farm to Fork'. As a class we are working on our understanding of where our food comes from as well as some aspects of farm life. We will be linking lots of our other learning with our topic!

ICT

Pupils continue to develop their ICT skills through use of the Chromebooks and Indi Cars in school.

Science

We are working on our knowledge of magnetism, light, sound and force this term. We will be using lots of hands-on activities to help our understanding.

Modern Languages

In French we are learning vocabulary for clothing as well as body parts. In BSL we will be learning signs for food and animals, and link this to our topic.

Literacy

This term, pupils will continue to work through our spelling programmes at their appropriate level. Spelling activities are completed daily, and learners are expected to apply this learning consistently in their writing tasks. As a class, we are all focusing on our handwriting and correct letter formation.

We are also continuing to work on grammar and our knowledge of different word types e.g., adverbs. In writing, our whole class target is to ensure we include capital letters, full stops and finger spaces in every piece of work. We are working on information reports and factual writing pieces, linked to our topic and otherwise.

Homework

Homework will be issued on a Monday via Google Classroom and is due back on Friday. This will give pupils the opportunity to consolidate their daily learning. We will also be using Easimaths and Reading Eggs in our homework, which will be linked through Google Classroom.

Weekly activities will include:

- Spelling
- Reading
- Numeracy/Maths
- Talking and Listening
