

### Numeracy

This term our focus will be on multiplication and division. We will work on quick recall of multiplication table facts and associated division calculations before learning the standard written method.

$$4 \times 3 = 12$$

Pupils will learn how to use money confidently, perform calculations and give change accurately.

$$3 \times 4 = 12$$

$$12 \div 4 = 3$$

$$12 \div 3 = 4$$

They will also learn how to collect, sort and accurately display data and will ask and answer questions about the information presented.

### French and British Sign Language

Pupils will follow classroom instructions in French and will also learn the names of colours and classroom objects. They will also learn signs for colours and food, and will continue to use BSL in everyday routines.

Primary 4 , Room 5  
Mrs Nicholas  
February – March  
2025

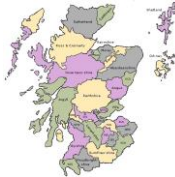

### Physical Education

Gym days are Wednesday (outdoors) and Friday (indoor). Our outdoor learning day is also Friday.

### Social Studies

We have been enjoying our **Mapping Our Community** topic and have been learning about different types of maps and their features. Throughout this term, learners will continue to develop their skills in reading and creating maps to represent our local area. They will also explore how land is used within the community and will identify key features and landmarks. Through this topic, pupils will gain an understanding of how communities are connected, how services are provided and how we can work together to care for our environment.

### Health and Wellbeing

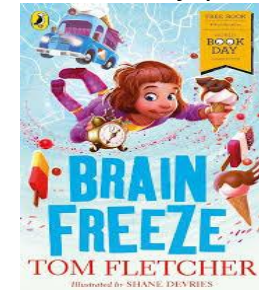

We will focus on the wellbeing indicators "Responsible" and "Respected," encouraging pupils to reflect on their roles and responsibilities at school, at home, and within the wider community. We will also focus on the blue Emotion Works cog, which helps us identify regulation strategies for managing uncomfortable emotions.

### Literacy

Pupils will continue to learn a new phoneme or spelling rule each week. Thank you for supporting them at home to learn their words for Friday Spell Check.

Learners will also read daily from a wide variety of fiction and non-fiction texts including poetry, reports, explanations, short stories and chapter books. Building on the success of *The Creakers* novel study, the pupils have chosen another Tom Fletcher book, *Brain Freeze*, to enjoy this term.

They will now write at greater length across a variety of genres, and we will use the story mountain format to write five-part stories which include an introduction, build up, problem, resolution and ending. Pupils will include dialogue in their stories and will learn to accurately use speech marks. They will also be learning to write accurate instructions and detailed explanations.

### Homework

Homework will be issued on a Monday via Google Classroom and is due back on the Friday. Activities will include: spelling, reading, numeracy and Learn Its.
