

Numeracy

Our current focus in Numeracy is Place Value. P4 will be working with numbers up to 10,000 and P5 will be working with digits up to 1 million. Our work will concentrate on writing, ordering and comparing, and partitioning these numbers. We will also learn about estimating using a number line and rounding to the nearest 10, 100 and 1000.

Learning will then continue on to the core operation of addition. Our main focus during this block of work will be developing our confidence using the standard column written method.

A real-life context will be used wherever possible to aid our learning in Numeracy.

We will continue to engage with our weekly Big Maths CLICS and Learn Its to develop our quick-fire recall of times tables and number bond facts.

Homework

Homework is issued on a Monday and is due to be returned to class by Friday. Tasks are issued on Google Classroom, in addition to children having a homework folder and jotter. Activities will include Reading, Spelling, Numeracy and Talking and Listening.

Literacy

This term, Room 6 will be reading 'The Hodgeheg' as our class novel. A range of reading activities will be completed in relation to the text including summarising, predicting, visualising and inferring. We will also continue to enjoy 'Reading for Pleasure' time each day.

Narrative and Recount writing will be our focus during weekly Taught Writing lessons. We will work on including detail in our work by writing descriptions of some well-known characters before creating and describing our own. Our whole class target is to ensure we always use capital letters, full stops and finger spaces in every piece of work. We are also working on checking our work for any silly mistakes and fixing these by ourselves.

We will also work daily spelling, using a strategies to help

Primary 5/4, Room 6

Miss Jones

September – October 2023

Health and Wellbeing

Together, Room 6 have already created a Class Charter as part of our learning about the United Nations Conventions on the Rights of the Child. We have this displayed in class and we refer to it daily.

This term we are focussing on the wellbeing indicators, Safe and Healthy. We will discuss various ways of keeping safe, including online and road safety, and the individuals who can help us. We will also continue to learn about our feelings and emotional wellbeing through EmotionWorks.

Our PE days are:

- Thursday (MUGA)
- Friday (Gym hall)

Outdoor learning will take place on Tuesdays. Please ensure appropriate clothing is worn to school on these days.

Social Studies

Our topic for this term is The Film Industry.

We will learn about the different genres which exist within film, and we will discuss some of the techniques used to create some of our favourite movies. We will also consider the many films we know and share what we like and dislike about them. Together we will explore some of the job roles within the industry and the skills and qualities needed to be successful.

As part of our topic, we will also identify key moments within film and document these on a historical timeline.

ICT

We will develop our ICT skills by using the Chromebooks and iPads in class. We will use these devices to engage in a range of activities to support our learning across the curriculum.

This term, our focus will be using the internet to research and retrieve relevant and specific information for our topic. We will then use this to create engaging and informative PowerPoint presentations.
